USIB-D-16.2/32
5 July 1960

UNITED STATES INTELLIGENCE BOARD

Validity Study on NIE 42.1-58

The Outlook for Stability in the Republic of Korea

Published 28 January 1958

Reference: USIB-M-101, item 9

A memorandum of 27 June 1960 to USIB members from the Board of National Estimates forwarded a draft validity study on NIE 42.1-58, "The Outlook for Stability in the Republic of Korea," (28 January 1958), indicating that the matter would not be placed on the agenda of a USIB meeting except at the request of a USIB member. It was also stated that unless, before close of business on 1 July, a USIB member objected or requested that the validity study be discussed at a USIB meeting, it would be considered that this paper had been "noted" by USIB as of that date. Since, prior to close of business on 1 July, no USIB member objected or requested a USIB discussion of the validity study, we now consider that the paper was "noted" by USIB as of 1 July 1960.
